Continuation of Attachment(s) 9. Other: If a satisfactory title is not supplied by the applicant, the examiner may, at the time of allowance, change the title by examiner's amendment. If the change in the title is the only change being made by the examiner at the time of allowance. This may result in slightly longer titles, but the loss in brevity of title will be more than offset by the gain in its informative value in indexing, classifying, searching, etc. If a satisfactory title is not supplied by the applicant, the examiner may, at the time of allowance, change the title by examiner's amendment. If the change in the title is the only change being made by the examiner at the time of allowance. The title wanted by applicants' attorney is NOT satisfactory because only a method is claim and there are thousands of patents which are directed to wireless packet communications. Applicants' title would hinder informative value in indexing, classifying and searching by the public and the Office. The request to change the title is DENIED.
